“He was a gentle, soft-spoken man, yet at the same time firm in his resolve to always stand for quality in scholarship and fair play in the treatment of everyone. For many years he was the face of Brazil at IEEE/ACM Micro, always providing keen insights into microarchitecture issues, and always reflecting credit on his home country.”

ACM SIGMICRO

The ACM Special Interest Group on Microarchitecture

“I think everyone enjoyed their interactions with himhe was very encouraging often when we were bucking the tide.”

(Prof. Yale Patt)

“Edil, we need to dig this car out!”
