

# Galileu Santos de Jesus

Software Engineer/Data Scientist

I have experience in data science and problem solving with algorithms, as well as a backend leader, acting on the following subjects: programming languages, algorithms, compilers, static analysis, back-end, data mining and so on. I've been programming for over 14 years.

## OBJECTIVE

I'm looking for a company to build a solid career and to apply all my experience and to help leading teams and developing solutions with efficient algorithms. Using Python, Java, C, C++ and others languages in back-end applications.

## LANGUAGE

Intermediate English

## EDUCATION

2012 - 2016

### GRADUATION IN COMPUTER SCIENCE

Federal University of Sergipe

2016 - 2018

### MASTER DEGREE IN COMPUTER SCIENCE

Federal University of Sergipe

2020 - CURRENT

### PH.D. IN COMPUTER SCIENCE

Federal University of Pernambuco

2022 - CURRENT

### DATA ANALYST

Laboratory of Technological Innovation in Health  
Responsible for data analysis and prediction of health systems. I've been working on COVID-19 data analysis, helping in decision making in several states of Brazil. In addition to being the backend leader of some solutions made in Python using Django.

2019 - 2022

### TECHNOLOGY DIRECTOR

Ensinar Tecnologia

I worked as a technology and innovation manager in educational projects throughout Brazil. Working with companies like Google (implementation of the Google for Education program) and Microsoft (artificial intelligence project: Academia Microsoft). In addition to being responsible for all innovation and customer support management.

2017 - 2020

### PROFESSOR OF COMPUTER SCIENCE

Federal University of Sergipe

Acting in subjects: Compilers; Formal Language; Functional Programming; Imperative Programming; Object Oriented Programming; Data Structure and Computer Fundamentals.

2016 - 2020

### TECHNOLOGY DIRECTOR

Colégio de Orientação e Estudos Integrados

I worked as a technology director, helping to create robotics projects and teaching programming, as well as corporate solutions.
