

# Measurements WG (*GT-Mediciones*)

**Prof. José Augusto Suruagy Monteiro**  
Universidade Federal de Pernambuco  
[suruagy@cin.ufpe.br](mailto:suruagy@cin.ufpe.br)

CLARATEC – Lima - Perú  
July 2, 2012

**CLARA**

This project is funded  
by the European Union

A project implemented  
by CLARA

# Measurements WG Goals

- Build upon the work started in the previous period (03/2009 – 03/2011) by the Measurements WG.
- Deployment of a monitoring infrastructure based on perfSONAR

- Deployment of monitoring nodes in RedCLARA's backbone
- Deployment of at least two monitoring nodes in each NREN connected to RedCLARA
- Deployment of monitoring infrastructures in interested NRENs
- Instalation of monitoring nodes in end user institutions

# Proposed MPs in the Future Backbone

- Task 01: Deployment and tests with perfSONAR MDM
- Task 02: Deployment and tests with the most recent version of the perfSONAR Performance Toolkit (pS-PT)
- Task 03: Test the tools with IPv6
- Task 04: Interoperability tests between pS-PT and perfSONAR MDM
- Task 05: Recommendations on the software to be deployed for RedCLARA's backbone monitoring infrastructure
- Task 06: Elaboration of the maintenance procedures for RedCLARA's backbone monitoring infrastructure
- Task 07: Dissemination and Training in perfSONAR usage

# Reviewed Schedule

	2011					2012												2013

- **Task 01: Deployment and tests with perfSONAR MDM**
- Task 02: Deployment and tests with the most recent version of the perfSONAR Performance Toolkit (pS-PT)
- Task 03: Test the tools with IPv6
- Task 04: Interoperability tests between pS-PT and perfSONAR MDM
- Task 05: Recommendations on the software to be deployed for RedCLARA's backbone monitoring infrastructure
- Task 06: Elaboration of the maintenance procedures for RedCLARA's backbone monitoring infrastructure
- Task 07: Dissemination and Training in perfSONAR usage

## Task 01: Deployment and tests with perfSONAR MDM

- Deployment and tests with perfSONAR MDM (developed by Géant)
- Recommendation for the best solution to be deployed in RedCLARA's backbone
- Collaboration with Géant's team for the installation and test troubleshooting among our sites and with MPs in Europe

# perfSONAR MDM Deployments

- DANTE is finalizing its implementation across the GÉANT backbone with 35 MPs in the PoPs across the network
- 7 NRENs are road-testing the service

# perfSONAR-MDM Status

- Version 3.3 is the latest stable release
- New Version:
  - Includes a new HADES MP and MA.
    - RPM Distribution ready
    - Debian Distribution in preparation
  - Currently the HADES MP in Madrid already supports OWAMP (answers to on-demand tests)
  - They are working on an OWAMP MP which should be available soon

# perfSONAR MDM Independent Deployment in RedCLARA

- Suggested set of services:
  - HADES MP (90 packets every minute)
  - BWCTL MP (tests every 6 hours)
  - SQL MA (data stored for 12 months)
  - These services could be configured in a static fashion without the need for a LS
  - It would be nicer if the services would be visible from other parties via a LS

# Next Steps (perfSONAR MDM)

- Confirmation of sites and machine configurations for the experimental deployment
  - VC 23/05/12: CEDIA, RAAP, RAU, RNP e RedCLARA (others are welcomed to join)
- Decide where the SQL MA and possibly LS will be deployed – Pending
- Webconf with Géant team for instructions on how to deploy and configure the services:
  - Held on 05/06/12
- Deployment, configuration and tests (IPv4 and IPv6)
  - Currently in Progress (BWCTL-MP) @ CEDIA, RAU, REUNA y RNP
- Report elaboration

# Available Machines

NREN	Contact	CPU	RAM	NIC	HD	Availability
CEDIA	Ximena Robles	Dual Core	2 GB	1 Gbps (on board)	500 GB	1st Semester 2012
INNOVA-RED	Carlos Salazar	AMD athlon X3 435	4 GB	1 Gbps	320 GB	Yes
RAAP (INICTEL)	Andrés Leiva Cochachin	XEON 2.4 GHz	2 GB	1 Gbps	200 GB	Dec. 2011
RAU	Luis Silva	Dell PowerEdge 2950 - Procesador 2 x Intel(R) Xeon(R) CPU 3.00GHz	3 GB	100 Mbps	300 GB	Yes
REUNA	Albert Astudillo	i5	8 GB	1 Gbps	500 GB	April/May 2012
RNP	Wagner Pereira	dual-core 3 GHz	2 GB		160 GB	Yes

[http://comunidades.redclara.net/wiki/gtmediciones/index.php/Available\\_Machine\\_Configuration\\_for\\_Experimental\\_Deployment](http://comunidades.redclara.net/wiki/gtmediciones/index.php/Available_Machine_Configuration_for_Experimental_Deployment)

# Available Machines in RedCLARA's backbone

- Gustavo Garcia (RedCLARA) pointed out the existence of machines in RedCLARA's backbone that are supposed to be used for deploying perfSONAR.
  - Albert (REUNA) had reported problems with the flavor of the OS installed in the machines which supposedly would prevent the deployment of the MDM package (rpm version).

# MDM Deployment Strategy

- Szymon presented two options for deployment:
  - single BWCTL MP:
    - Appropriate for the international connection: results for regular tests would be stored at Géant's Measurement Archive service (SQL MA).
  - multiple BWCTL MPs + one SQL MA:
    - Should be our case with the services being deployed
    - Still pending the selection of a machine to install the SQL MA (suggestions/availability are welcome)

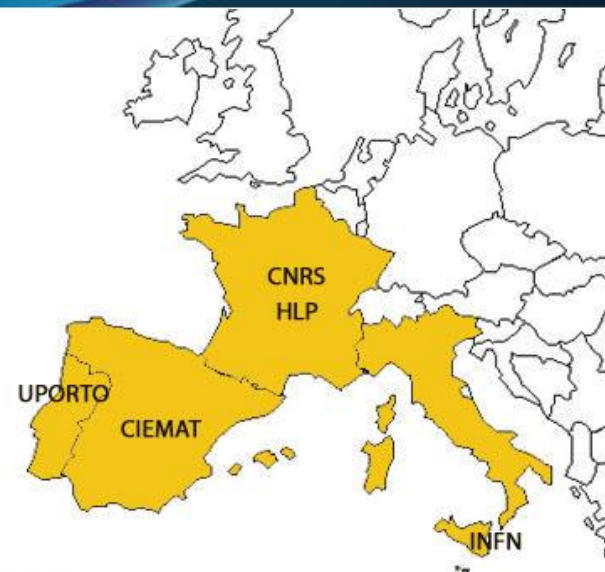

- Task 01: Deployment and tests with perfSONAR MDM
- Task 02: Deployment and tests with the most recent version of the perfSONAR Performance Toolkit (pS-PT)
- Task 03: Test the tools with IPv6
- Task 04: Interoperability tests between pS-PT and perfSONAR MDM
- Task 05: Recommendations on the software to be deployed for RedCLARA's backbone monitoring infrastructure
- Task 06: Elaboration of the maintenance procedures for RedCLARA's backbone monitoring infrastructure
- Task 07: Dissemination and Training in perfSONAR usage

# Synergy with GISELA

- Grid Initiatives for e-Science virtual communities in Europe and Latin America
- [www.gisela-grid.eu](http://www.gisela-grid.eu)
- Objective:
  - To guarantee the long-term sustainability of the European – Latin American e-Infrastructure and thus ensure the continuity and enhancement of the Virtual Research Communities (VRC) using it.

## pS-Performance Node For Universidad de Los Andes In CecalcULA

### Host Information

Organization Name	Universidad de Los Andes
Host Location	CecalcULA
Administrator Name	Javier Contreras
Administrator Email	<a href="mailto:javieri@ula.ve">javieri@ula.ve</a>

### Communities This Host Participates In

pS-NPToolkit-3.2.1

### Host Status

Primary Address	190.168.16.11
MTU	1500
NTP Status	Synced
Globally registered	Yes

### Services Offered

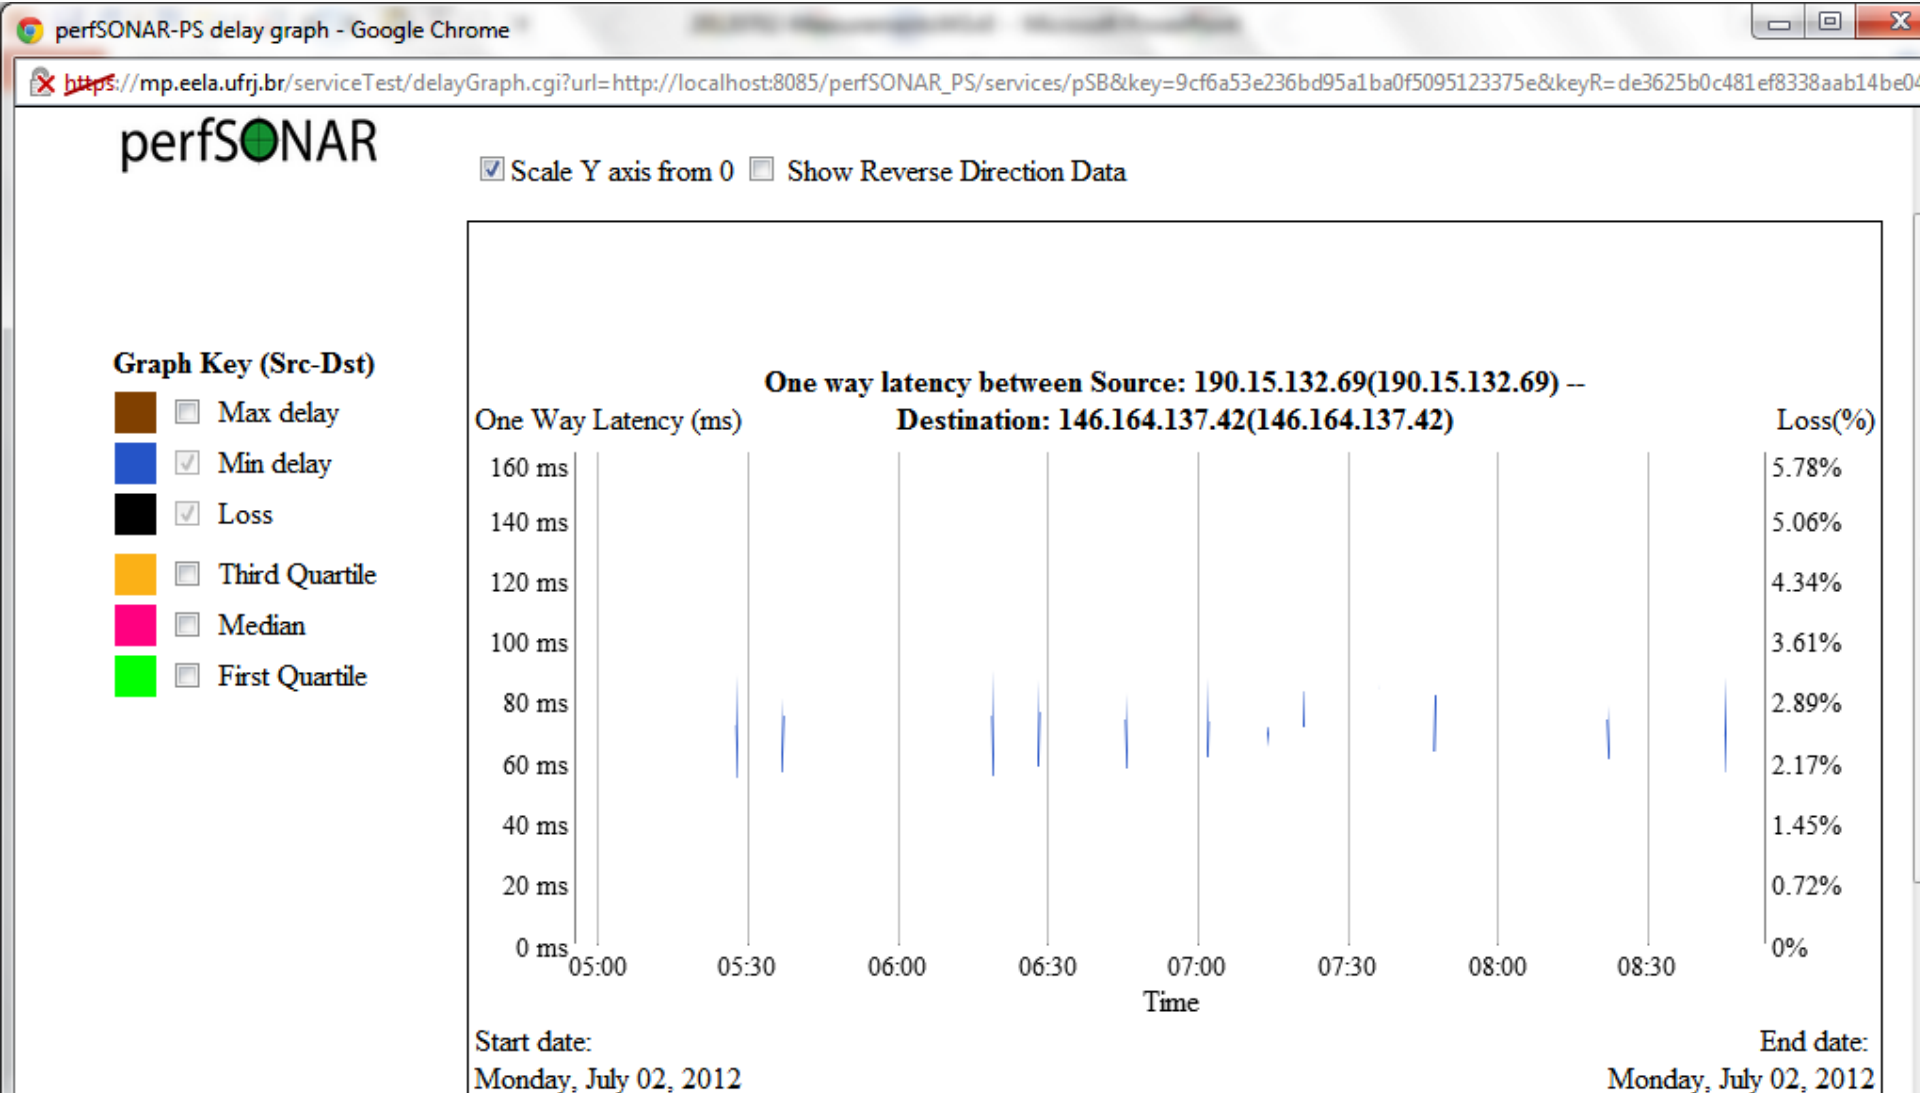

Bandwidth Test Controller (BWCTL)<sup>[1]</sup> **Running**

- [tcp://\[2800:26:82:1:219:66ff:fe50:984f\]:4823](tcp://[2800:26:82:1:219:66ff:fe50:984f]:4823)
- <tcp://190.168.16.11:4823>

Lookup Service<sup>[1]</sup> **Running**

- [http://\[2800:26:82:1:219:66ff:fe50:984f\]:9995/perfSONAR\\_PS/services/hLS](http://[2800:26:82:1:219:66ff:fe50:984f]:9995/perfSONAR_PS/services/hLS)

# Some Results (CEDIA → UFRJ)

- MonGISELA Portal can be extended to report our Measurement WG collected data.
- A report was generated on the experiences with perfSONAR-MDM and the pS-Performance Toolkit.

- BWCTL
  - MDM: version 1.2a
  - psPT 3.2.1.1 (MonGISELA): version 1.3
  - pSPT 3.2.2: version 1.4 – Added support for -6 and -4 flags to explicitly set IPv4/Ipv6 behavior
- OWAMP
  - psPT 3.2.1.1 (MonGISELA): v3.2rc2
  - pSPT 3.2: v3.3 – Added support for -6 and -4 flags to explicitly set IPv4/Ipv6 behavior

# WG Ways of Communication

- Communities in RedClara's site (started on 07/02/12)
  - GT-Mediciones  
([http://www.redclara.net/index.php?option=com\\_community&view=groups&task=viewgroup&groupid=100&Itemid=543&lang=es](http://www.redclara.net/index.php?option=com_community&view=groups&task=viewgroup&groupid=100&Itemid=543&lang=es))
  - To join the group it is necessary to register.
- Wiki (started on 07/02/12):
  - <http://www.redclara.net/wiki/gtmediciones>
  - To view and edit is also necessary to register first.
